Mixer type	Manual
Design	Vandal resistant - chrome plated brass
Start	By means of a lever
Spout	Equipped with a strainer
Contains	Battery, 2 1/2 "fittings, masking rosettes

Wall-mounted medical mixer for hot and cold water. Used in outpatient clinics, doctor's offices and hospitals. Equipped with a swivel spout, thanks to which it works perfectly in installation with two-chamber sinks, e.g. in gastronomy. Thanks to the use of a long lever that facilitates starting and regulating the water temperature, the medical battery works great as a surgical or gastronomic bathroom equipment.
