

Soap Dispenser C7003TC

Horizontal liquid soap dispenser in a stainless steel housing. In the middle of the dispenser there is a plastic soap cartridge with a capacity of 1.2L, which prevents damage to the container housing - refilling is done by adding soap from the collecting container. The surface is polished (bright steel). The infusion is opened by a special key attached to it. It does not require expensive soap refills. On the front of the dispenser there is a window for viewing the amount of soap.

Product Features and Benefits:

- Entirely made of stainless steel
- Protruding pump - intuitive use of the dispenser
- Window for viewing the amount of soap
- Rounded shapes
- It fits in every bathroom
- Plastic soap container
