

Waste bin B7526

- Lightweight construction
- Solid build
- ABS plastic material
- White finish
- Large capacity
- Touchless operation
- Easy to clean
- Simple maintenance

Capacity	26 L
Housing	ABS plastic
Color	White
Flap	None
Dimensions	348x227x414 mm
Assembly	To be placed on the floor/ wall

The 26L waste bin, made from durable ABS material, is designed to offer high resistance to mechanical damage, ensuring its longevity and reliability. Thanks to its solid construction, the bin is resistant to scratches and deformations, making it an ideal choice for high-traffic areas.

With dimensions of 348x227x414 mm, it provides comfortable use and waste storage, while its 26-liter capacity makes it an optimal solution for daily use. The bin can be wall-mounted, saving space and maintaining order in the room. Its simple yet modern design allows it to blend seamlessly into various interior styles, offering both functionality and aesthetic appeal.
